INTERSCHOLASTIC ATHLETICS

The Interscholastic Athletic Program at Haverhill has been developed as an integral part of the educational program. It is the School Committee's desire to see that athletics provide a setting in which students' physical, social, and emotional development is understood and enhanced.

The rules and regulations which govern interscholastic athletics are contained in the Haverhill High School Interscholastic Sports' Handbook which should be read and understood by all staff members and students involved in interscholastic sports.
